COMMERCIAL HOTEL,

Corner of Willard and Water Streets, Bangor

THE subscriber would respectfully give notice to his friends and the public that he has taken a lease of the spacious and elegant building on the corner of Wall and Water streets and opened the same as a Hotel. It has been fitted up in superb style—contains several fine suits of rooms, parlors and chambers—and altogether will compare favorably with any hotel in Maine. Its locality is central and convenient for persons visiting the city on business, and for those intending to take the steamers, being near the steamboat landings.

The good Stabling, and a faithful Ostler always on hand.

DEAFNESS CAN BE CURED!

COOPER'S ETHEREAL OIL.—A prompt and lasting remedy for *DEAFNESS*, also for pain and discharge of matter from the Ears.

Hundreds of cures in Canada and elsewhere have firmly established its superiority over every former Medical discovery.

This valuable Accoustic Medicine is a compound of four different Oils, one of which the active and principal ingredient is obtained from the bark of a certain species of Walnut, a new and effectual agent to be cure of Deafness.

Persons who have been deaf for 10, 15 and even 20 years, have been permanently cured by using this Oil. In fact, so numerous and so emphatic have been the testimonials in favor, that the inventor claims for it the distinction of an Infallible Remedy in all cases, where the ear is perfect in its formation.

For further particulars, and evidence of the cures, see pamphlet, which is in the hands of Agents.

THE subscriber by appointment from the Commissioner of Patents, is Agent of the U. S. Patent Office for the purpose of receiving and forwarding to the same all such models, specimens of ingredients and manufactures as shall be intended to be patented, or disposed therein which will be received and forwarded, free of expense and risk to the owners and with all possible despatch. The subscriber will prepare Caveats, Specifications, Assignments, and all the necessary Papers and Drawings, will make researches in American and Foreign works for establishing the validity or utility of inventions and render advice on all legal and scientific matters respecting the same. Patents secured in Europe and other countries.

By application at this office, inventors can save the time and expense of a journey to Washington and delay there as well as all personal trouble in obtaining their patents. The experience of fifteen years practice—an extensive collection of rare works, documents, decisions &c. on mechanical subjects and the Patent Laws—and patents of different countries, collected at much expense during the long time this office has been established, to which daily additions are being made together with accounts have kept of situations patented at Washington, enable me to afford import. ant assistance and information to inventors, and to securing patents, which in other respects will be found difficult of attainment.

DR. CUMMINGS'S

Compound Extract of Sarsaparilla and Dock

THE articles above named are the principal ingredients of this medicine. With these others of vegetable origin are combined, designed to render them more active, and consequently more immediately effective.

The Dock or rather a species of it, now ranks as a medicinal plant second to none of the vegetable kingdom. With the aid of a distinguished chemist whom the proprietor has consulted in the preparation of the compound he has succeeded in overcoming the difficulty of preserving the extract of the root for any considerable length of time.

For many years the proprietor has tested in his practice the efficacy of the principal substances of the compound and is perfectly satisfied that they possess all the properties which have been attributed to them. Recently he conceived the idea of uniting them which has resulted in the production of the compound. In this the ingredients are found to act in concert and to lose none of the qualities which they separately possess.

A larger portion of Sarsaparilla is sold than has generally been supposed. The extract about to be tested on and least liable to decomposition is prepared by subjecting the root to the action of the menstrua usually employed in extracting its virtues, or a long time without heat or any other accelerating agent. None is permitted to be used in the compound, that has been less than a year in preparation.

The Compound is recommended for Scrofula, Erysipelas, Ulcerous affections, Eruptions, and cutaneous diseases. Also for the numerous ailments arising from sedentary employments, occupation of a harassing and fatiguing nature, intense application, exposures to extremes of heat and cold, overtasking the physical powers, and other causes of the constitution among which are Neuralgia, Piles, Affections of the Liver, Bilious Complaints and Dyspepsia or Indigestion.

In Diseases of warm climates with which the proprietor became familiar in his practice in Havana some years since, the compound will prove particularly efficacious, both as a remedy and a preventative.

This medicine has been for some time in use in Havana where the proprietor has passed nearly at a century of his professional life. It was extensively prescribed by him while in practice, and it is believed to be in favor with his medical brethren in general, to whom he is known.

Prepared only by Dr. Stephen Cummings and for wholesale and retail by Jo. Hall, jr. & Co. No 113 Middle street, and Edward Mason, No 153 Middle street—only agents for Portland.

Sold in Bangor by G. W. LADD and JOSEPH ANGRAHAM.

Kirkbride's Tattersall's

HEAVE POWDERS;

A SAFE, SPEEDY AND PERMANENT CURE for *Heaves, Broken Wind, Chronic Cough, Colds* and all diseases which depend upon inflammation of the mucous membrane in the lungs, throat or head of the Horse, or other the

Soundness of the Animal a Wind.

This remedy which has been used with such remarkable success in England, is now offered in Boston on an in the United States as a positive specific for these obstinate and distressing complaints. From the combination of powerful vegetable ingredients in its composition, it is enabled to compete successfully with disease in the hardy constitution of the Horse, and at the same time is warranted to be perfectly safe and genial to be eaten greedily by the horse and other cattle and does not at all incommode even the spirited, or deter him from usual labor. The following testimony of many proofs we have of its efficacy. It is from one of the best Farriers in New York, and a gentleman whose knowledge in the medical treatment of Horses is very extensive.

New York, Nov 1 1847

Messrs A. H. Gough & Co.

Gentlemen—You will recollect that I thought a pail-ful of your Heave Powders some time ago to be of no to a valuable horse of my stables, and that I was quite desirous of attempting to cure such a bad case in his way and did so, in fact believed there were no medicines better for his complaint than those. I had been in the habit of using my extensive practice with them. But in toto to you and your valuable remedy, I can say, that that single package cured the animal of an aggravated case of Heaves as I ever saw, and his wind is now perfectly good. I be ieve the cure is a permanent one.

Respectfully, Sir FLOYD, 102 Laurence-st.

Messrs A. H. Gough & Co—Gents, I bought a box of six weeks ago, a package of Heave Powders on behalf of a favorite horse, who had been troubled with heaves for more than two years. He came home very hot, and so severe as to incapacitate him from half his usual labor, and had resisted all the remedies ordinarily used for the same cause, then I had no effect but to slightly diminish the violence of the heaving while taking the medicine, but that package of your remedy has completely eradicated the disease, and now his wind is as good as ever it was. It is a month since he has taken the Powders and I can say he has been good.

Respectfully, GEO. W. DAVIS,
Morristown, Middlesex Co., N.J.

GREAT CONDITION MEDICINE.

Besides their specific action upon diseases of the lungs and windpipe, the Tattersall's Heave Powders, from their great alterative and restorative properties, are an effectual in horses as sarsaparilla proves to be in the human race for the treatment of impurities of the blood and predisposition to disease. Many a case of glanders has been prevented and cured by a few doses of the Heave Powders when thrown into the food that is given to the heated animal after a hard drive or any gallop in inclement weather. They are warranted to cure the worst cough in a few days, and will undoubtedly arrest a recent cold by the use of a few doses. As a condition medicine they are unequalled, especially when a sight hide, staring coat, loss of appetite, etc. denote a derangement of the digestive functions, or an excess of bots and worms in the alimentary canal, as described in the following extract.

Messrs. A. H. Gough & Co.—That package of your Heave Powders that I bought of you for my horse's cough has entirely cured him, but in a different way than I expected. The first dose of Expectorant Powder that I administered brought away an immense number of worms from him, and I believe they were all the cause of the cough, cough that no other medicine, but that package has entirely cured him, his coat is good and he is now in prime condition. I cheerfully recommend your Heave Powders for worms as well as for cough. Yours, SAM'L ROBERTS.

East Hampstead, L. I., Oct 26, 1847.

CAUTION. As several imitations of this valuable and popular remedy are offered to the public under the name of "Heave Cure," "Heave Compound," &c., persons are cautioned to be sure of obtaining the genuine article Kirkbride's "Tattersall's Heave Powders."

No Stable should be without this potent preservative. Price $1 per package or sufficient to cure an ordinary case, 6 for 5 dolls.

Sold by A. H. Gough & Co. 148 Pearl st. New York, S. W. Fowle, Boston, and by Druggists generally throughout the United States.

DR. WARREN'S

SARSAPARILLA TOMATO AND WILD CHERRY

PHYSICAL BITTERS,

At 50 cents per Bottle.

SARSAPARILLA, TOMATO and WILD CHERRY BITTERS have now become a standard Medicine, universally approved by Physicians as a safe, speedy and effectual remedy for *Scrofulous, Mercurial and Cutaneous Diseases*, Salt Rheum, Tetter, Ringworm, Dyspepsia, Bilious disorders, Liver Complaint, Costiveness, Weak and Sore Stomach, Ulcers and running Sores, Swelling of the Joints, Pain in the Bones, Tumors in the throat, Rheumatic affections, Salt Rheum, Erysipelas, Red Blotches, Eruptions on the face or body, Canker sores, King's Evil, Chronic Catarrh, languor debility, headache, dizziness, pallid complexion, and all those disorders which arise from the taint of Mercury or from an impure taint in the blood, no matter how acquired.

The extract here presented is prepared after directions given by the celebrated Dr. Warren, whose name it bears, and it will be found superior to any preparation of the kind now in use. It is highly concentrated, entirely vegetable, and very finely flavored to the taste. The change which it produces in the condition and tendency of the system is speedy and permanent.

As a Spring Medicine for purifying the blood—strengthening the stomach and body, and checking all consumptive habits, the Sarsaparilla, Tomato and Wild Cherry Bitters are entirely unrivalled.

At Milan even, the inhabitants to manifest their joy, defaced on re appearing at the theatre, which had been deserted since the deplorable occurrences of January. Consequently on the 5th inst, the Scala was filled as it by enchantment. On the next day, Sunday, 30,000 persons, by agreement, attended the last mass at the cathedral, which was celebrated for the repose of the souls of the Patriots who died during the bombardment. The crowd, which could not entirely enter that immense church, dispersed quietly after Divine service, and the grand manifestations passed off without the slightest disorder.

TRIAL OF DR. V. P. COOLIDGE

For the Murder of Edward Mathews of Waterville.

Addison Smith sworn—Testified to prisoner's signature on several papers shown him, they are statements which were made before the coroner's jury by Dr Coolidge.

The paper was read by witness and is in substance as follows

STATEMENT of COOLIDGE, SATURDAY, 1st of OCTOBER.

I saw Edward Mathews yesterday afternoon, about 2 o'clock, near Charles Mathews' store, he asked me if I was going into my office, I told him I was, soon after he came into my office, he wanted to have some money of me, two hundred dollars, and he was going to let two gentlemen have it who were speculating in lands at the West, he did not name the gentlemen, nor where they were from, I said I did not have not the money to spare, I had rather you would get it some where else, but I said if you cannot, I will let you have it, I did not let him have it at that time, he said if he could not get it anywhere else he would call again at 8 o'clock and wished me to be at the office, he took a glass of brandy which set in a row with other medicines and went out this was about 3 o'clock in the afternoon, he was at my office from five to ten minutes. I do not know which way he went from my office. I next saw him a few minutes after eight o'clock in the evening; I did not see him between the times above mentioned when I saw him in the evening, it was at my office; he then came in and said—Doctor I must have that money, and I will pay you in the morning. I let him have a one hundred dollar bill that I had of W R Doe of Boston. I do not recollect on what bank the bill was—and one hundred dollars in other bills, making two hundred, he then took his money out of his pocket, and counted it, he had two thousand dollars, including the two hundred he had of me, he then put the money into his pantaloons pocket wrapped up in a paper, Mathews said I have brought a complement for them and am ready, and immediately stepped out of the office, I soon followed him, and when I passed out of the office I saw Mathews in company with two gentlemen with alose on, before David Shorey's shop door, as soon as they saw or heard me, they turned off down street, towards Stevens river, I saw two men that I supposed to be the same above named, near Goodwin's store the same evening before I saw them in company with Mathews; they were strangers to me, I had never seen them before, I was not near enough to distinguish their faces or describe them. I then Dow a Tapers in the evening about 7 o'clock I stepped in to see the Regulator. I saw Charles Mathews in the door, I think I did not have any conversation both him at that time; I might have said good evening, the day before, that is the day before yesterday in the afternoon, I had a conversation with Edward Mathews about signing a note at the bank with him; it was in my office; he came in and said, I have got some money to loan—and said will you sign a note with John Mathews he signed it in the bank, I said, No, at other; it was four or five o'clock in the afternoon; no one was present; I promised wished to keep the business a profound secret; wished me to tell no one for my life—mentioned that purpose he wanted the money for, and the fact that he had applied to me to sign the note, I super scribed my letter from Dr Potter informing me that I could make a great speculation, and never mentioned any such thing to deceased; I think I received one letter from Dr Potter within two months, not quite two, certainly not more than one, have not within one week past received any letter from a person in Cincinnati, in the letter I had from Dr Potter he spoke of speculation—and said he had $5000 he could make $9000 in one year, I made a copy of this when deceased, he had my note for a note I bought of him, and I gave him for it a note against Hodgdon, on a few minutes after I left the office as I have before said, I returned to my office afterwards during the course of the evening, it was about nine or half past nine, I again left the office and went into Williams Hall to call Mr Flint, I wanted him to look up a note on us in the bank, he returned to the office with me, Mr Flint stayed there about one hour, and then went away a little before eleven, I soon after left the office and went to bed at Williams, this morning at four o'clock I went to Mr Bassett's in Winslow, I returned, and at six o'clock I started to Skowhegan, I had no call last evening to visit my auntie abroad, I did not write any note to the deceased last evening or at any time, deceased did not solicit me to become interested with him in any speculation, when deceased was in my office Wednesday afternoon, he appeared to live hard too much, I did not conceive he was under the influence of liquor—at any time yesterday, I received a letter daily before yesterday from my brother in Greenwood, Mississippi, I have had a consultation with George Gilman about a speculation, but did not solicit him to join me in it. It was in relation to land west a month, I do not recollect that I asked him to hold the money, I have looked for letters from Dr Potter since I testified as above in relation to letters from him, and find none later than April, I have received letters from him since the time, but cannot find them, nor can I tell how or to whom I have received them, I have my day book where I now exhibit. I made the charge of two hundred dollars to deceased this morning when I returned from Skowhegan.

P. V. COOLIDGE

There is also a certificate with the names of N P Coolidge and Stephen Weaver attached, signing a conference in the prison out Dr Plaist'd relating to his testimony before the coroner's Jury, concerning the *post mortem* examination of the body of deceased.

Cross Examined.—This narrative was made from answers to interrogatories put principally by Mr Boutelle and I believe in part the language he made use of, he sometimes adopting the language of the question, sometimes making use of language of his own, all his testimony was taken down, for the reason that time he was suspected of the murder, I supposed to have more knowledge of the affair than some others, he knew that he was suspected and told that he could have many witnesses called to testify which he was on that night, a Mr Robinson was called at his suggestion, I do not know that persons were appointed to watch Dr Coolidge, but such was the report, the course of the examination was such as must have caused Dr Coolidge to suppose he was suspected. I knew that committees were appointed to search the town, and that the town was divided into districts in one of which was situated Dr Coolidges office, these committees were appointed on Friday the first day of October, and requested to proceed immediately with the search, the Doctor did ask particularly that Mr Robinson should be examined and testify where he was on Thursday evening, but he did not desire that Mr Flint should be called, he felt at a certain point of his examination, and went to his office for some letters—on his return he brought a blank day book and exhibited it, saying I to ask, inside the charge of $200 against Mathews since he went out but of this I will not be positive, the doctor's testimony was read to him after he had finished it, and he pronounced it correct without a surplus, in which case I have made a correction.

FIFTH DAY.

SATURDAY.

Charles R Mathews sworn—I saw Edward Mathews at the Parker House a little past eight o'clock on Thursday evening I met him there in company—went into the room with him, he called me to one side and (witness here stopped by Mr Evans) Mr Merrill here stated that they proposed to prove what Mathews said he was going when he left that room on the evening before the murder. The Court ruled that it might be admitted as part of the *res gestæ*. Witness proceeded—When he (Edward Mathews) called me to one side, I think a conversation between us (all conversation in the witness was not permitted to be told) he said it was time for him to go to Coolidge's office, he left the room once before, went towards Coolidge's office and said he was going to see if he could see any thing of the Doctor. The first time was about 7 or 20 minutes before he went the last time. He was absent the first time but a very short time—perhaps a minute, perhaps longer. He was at my side in the forenoon of Thursday—he had a letter from Dr Coolidge (objected to) Coolidge's signature was to the letter—the body of the letter I supposed to be in his (Coolidge's) handwriting. The last I saw of the letter, Edward put it in his pocket somewhere. (Witness here asked the contents—he told—asked, if he was acquainted with Coolidge's handwriting, and thought he had seen him write—had seen his writing in prescriptions,—independent of this, and in various other of his writing.) The letter was read by Edward in my hearing. (Witness here prevented from stating what Mathews said when he read that letter.) Examinations upon this point here suspended after some conversation between Counsel and Court. Note of the Bank here produced, signed by witness' brother and Edward. They were both present when I saw it, and it was done in my store. Edward took the note and we left, and went down street towards the Bank. About an hour and a half or two hours after, he came into my store and exhibited a pocket money to use—bank bills I did not particularly examine the money, I saw and he quite a large amount. He repeated to my wife but a short time at that time. Once in the course of the afternoon in shop he wrote an instrument—this was prior to bringing in the money. He took a blank mortgage of personal property which he got of me, and wrote an instrument—copied from a book of forms which he also got of me. I looked over his shoulder as he read the instrument to me—(a statement objected to). He put the instrument about his person, and left with the last I saw of it. He commenced writing one paper here at off before we wrote this paper he handed to me a note which he did not find on a writing he found in his store room left—(objected to, and after being allowed in Court, the witness proceeded) Edward Mathews remained in my store an hour and a half at that time. The first book from which he copied he took with him.

Cross-Examined.—I do not recollect that only having seen Coolidge write but once—that was a prescription which I had. I don't recollect what the prescription was—it was two or three lines. (Witness was here cross examined at length, as to his personal knowledge of prisoner's hand writing.) When he left my office with the note, he said not my where he was going. When Mr Evans left the Parker House that evening, I think it was pleasant, my impression is that it was starlight, streets rather wet. I was at the door my when he left the first time. He was then absent but a moment or two. I did not go to see door when he went last; I remained at the party until about eleven. I think it was pleasant when I left; do not know whether it was foggy and dark at any time during the evening.

William Mathews sworn—Brother of deceased. I am Administrator on my brother's estate. I have custody of his papers. I found among his papers an assay instrument or mortgage to deceased by the last witness. I found a mortgage of an interest in a newspaper establishment, but no such one as I judged to be last witness. I found among his papers no letter from prisoner. His papers were delivered to me by Philander Houlton his partner, in his writing desk and travelling trunk, where he usually kept them.

Cross examined.—Have made search among his papers, &c.

Charles R Mathews—recalled—Mr Merrill now proposed to prove the contents of letter which witness saw Edward have in his shop from Dr Coolidge. Prisoner's Counsel still objected, but the Court permitted the evidence to be given. I read a portion of the letter, and looked over it while Edward read it. That which I read myself was a "request from Coolidge to come to the office that evening," and it was added "defend it not for your life" the last part of the sentence being heavily underscored, the first part of the letter did not make different impression to cause me to remember it so as to be able to swear that Edward read it so correctly (no other part of the letter was given in evidence.) Mr Merrill now called for the contents of that portion of torn mortgage which he found on his floor after Mathews wrote in his shop, objected to and overruled.

John Mathews sworn.—By Evans. I have been here in Court the two last days, after I was notified of the order of Court not to be present.

Evans moved the witness be dismissed.

Merrill. The government is not responsible for conduct personal to the witness. We did not know he was here.

Court took time to consult and witness was temporarily withdrawn.

The point having considered the objections, allowed John Mathews to test it.

I came into the back store about 4 o'clock that afternoon. Edward was at the desk and took the paper from him, went into the front part of the store to another writing desk and handed the paper to me which I read. The instrument was partly in print and partly in writing. That is my impression, and that the tenor of it was similar to a mortgage deed. I signed the note at the same bookstore. He was present. I signed the note, then Edward stepped up and put his on, and then Charles stepped up and put his name on, on the 30th of September. I held a note against prisoner for $200, money lent two years ago. He agreed to give me twelve per cent, the note was written for that. I objected to the 12 per cent being on the note and was satisfied off. I saw prisoner on Friday succeeding the murder about 11 o'clock A M I overtook him near Mr Percival's store on the east walk, asked if he would go up to Williams' hall with me, and putting my arm in his we went up thither. After we were in the hall, I said something like this—"Would it be proper for me to put some questions to Dr Coolidge." It was told me it would. I enquired of him was Edward Mathews in your office last evening? He replied "*He was twice*." Then I asked if he was to loan him money. He said "No—he was to borrow money—I lent him $200." I asked him if he took his due bill or note. He said "No, I asked him for his due bill but Edward appeared to be in a hurry and said he would give it in the morning, and I changed my." At that time I was prevented from putting any more questions to the Doctor—that was the first time I saw Coolidge. Think he was going towards his office, and that I came up behind and hailed him on the sidewalk.

Cross examined.—I saw that paper about 4 P M—signed the note about 11 A M. When I questioned Coolidge there were several persons there among them 'Tom,' (mentioning Edwin Noyes) you prevented me from putting any more questions, when I went into the hall can't say who were there, but I think Sumner Percival was there and three persons who were on the jury. You came up, I met him from the easterly end of the hall, and stopped my putting questions. My impression is you had a paper in your hands. I think there was a chairman, but don't know who he was. I asked the liberty as an uncle of the deceased to be present during the examination of Dr Joe. Witness recollection about the examination of the committee of search was not distinct—The Doctor did not object to going with me to the hall.

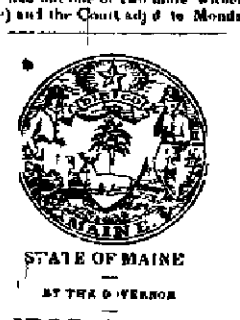
Miss Finda Williams sworn—Flint came into the sitting room about 8 o'clock Thursday evening—examined a child with a remarkable head—stepped out of the room a minute or two and returned with a string to measure the child. He remained in the room until about half past nine. When he went into the entry with the child Dr Coolidge who came to him took leave, a minute.

Cross Examined.—I saw Coolidge—the sale of his face—has fair and but I heard his voice distinctly. I saw on the door of the room. (In answer to Court where and what I saw he just said as in the entry afterwards looked and spoke as if he was in a hurry. Curtains were down in the sitting room. I don't remember that Flint told me afterwards what he went to the office for.

Prof. E. Sanders sworn—Had conversation with Coolidge, on the 20th or 25th of Aug—I call of Coolidge I set on a subscription for the benefit of the Coolidge. He wished for time for reflection. I called a day or two after—he was about to go away. Said he had not yet made up his mind but would let me know soon. I saw him a few several weeks and did not return before 27th of September. I then called again within a few days and found him in his office. He was making a prescription for an individual. After he had got through I introduced the subject again. He said he could not subscribe, as he had entered into a speculation or made a purchase with Dr Potter in a great amount—I think he said $10,000. Said he expected to realize a handsome sum from this and if so did he would make the College a handsome present. I passed out across the street. He followed and again told me to say nothing about it. In one of these conversations he said he thought of going abroad, and requested me to say nothing of it.

Samuel Doolittle sworn—I saw prisoner on Friday evening night. He asked me if contents of a stomach had been preserved, I told him they had. He said he did not think they could tell any thing about them, they had been kept so long.

Cross examined.—Was in Coolidge's office on Friday evening—many in—committees organized at an early hour. (State counsel here said he had but one or two more witnesses to introduce) and the Court adjourned to Monday.



STATE OF MAINE

BY THE GOVERNOR

A PROCLAMATION.

For a day of Public Humiliation, Fasting and Prayer.

I, John W Dana, Governor of the State of Maine, in conformity with a venerated usage, and with the advice of the Executive Council, do set apart, THURSDAY, the thirteenth day of April, as a day of PUBLIC HUMILIATION FASTING and PRAYER.

Reflecting that we are entirely indebted to the munificence of our Heavenly Father, for the manifold blessings with which we are constantly surrounded, let us on that day humble ourselves, and in a deep shame contrite that we have forgotten or denied the hand from whence they flow or have received them thankless and murmuring, because Infinite Wisdom still permits the existence of some evil that we are impotent to remove, or withholds some fancied blessing we crave.

Remembering that we are primarily responsible for ourselves and not our neighbors, let us each call home our thoughts from their anxious wandering after the errors of others, and turn them within, upon the dark, unexplored recesses of our own hearts; bestowing upon ourselves that severity of judgment which we are wont to extend to others around us, and extending to them instead, that charity which thinketh no evil, which 'suffereth long and is kind.' In thus judging ourselves in the light of truth, and others in the light of love, we may with confidence ask God Great Him whose essential attributes are truth and love.

Under such a disciplined mind and heart, if we remain by our resolves, we shall spend the day in SOLEMN HUMILIATION, fasting and prayer, or if we go up to the house of God we shall go there to die the publican, not the pharisee.

Given at the Council Chamber at Augusta, this first day of February, in the year of our Lord one thousand eight hundred and forty-eight, and of the Independence of the United States the seventy-second.

JOHN W. DANA.

By the Governor:

EZRA B. FRENCH, Sec'y of State.

Police Court.

George Sigton was brought up by constable Walker on Tuesday for stealing $25 from Jones' stage. Found guilty and ordered to recognize in the sum of one hundred dollars for appearance at District Court. Committed to jail.

On Wednesday the same officer brought up John Beasley, and Jeremiah Toner for beating a man in the highway. Fined $10 each.

Arrest for Stealing—Great Haul.

Constable Walker arrested yesterday a young man by the name of James Brown alias Joseph W. Copp, for breaking into the stores of Dexter Andrews, Ephraim W. Whitney, Michael Schwartz, and others, within the last three weeks, and from them stealing. The Prisoner will be examined before the Police Court this day.

FREEDOM AND A FIT OUT.—The *Cincinnati Chronicle* notices the arrival there, from Augusta, Georgia, of a colored woman and her twelve children, recently set free by "the last will and testament" of a wealthy old man of that place. The woman was his favorite servant, and besides giving her and her children their freedom he has also bequeathed them between $40,000 and $50,000.

The Water.

BY ELIZA SMITH.

How beautiful the water is!
Did it ever think of it,
When adventurous ables from the skies,
As it was angry fit?
It pattles, ringing as it falls,
On all that's in its way—
I hear it dancing on the roof,
Like some wild thing at play.

'Tis rushing now adown the spout
And gushing out below,
Too full of happiness to rest
In its wild and sparkling flow.
The earth is dry and parched with heat
And it hath longed to be
Released from out the selfish cloud,
To cool the thirsty tree.

It weeps, rather rudely, too,
The flowerets simple grace,
As if to chide the pretty thing
For that upon its face.
It seems the tree till every leaf
Is free from dust or stain,
Then waits till leaf and branch are still'd
And showers them o'er again.

Drop after drop is trickling down,
To kiss the stirring brook,
The water dimples from beneath
With its own joyous look,
And then the kindred drops embrace,
And singing as they go,
To dance beneath the willow tree,
And glad the vale below.

How beautiful the water is!
It loves to come at night
To make you wonder in the morn
To see the earth so bright.
To find a youthful glory is spread
On every shrub and tree,
And flowerets breathing on the air
Their odors pure and free.

A dainty thing the water is,
It loves the flowerets cup,
To nestle 'mid the odors there,
And fill its petals up;
It hangs its gems on every leaf,
Like diamonds in the sun,
And then the water wears the smile
The flowerets should have won.

How beautiful the water is!
To me 'tis wondrous fair—
No spot can ever lonely be,
If water sparkles there—
It hath a thousand tongues of mirth
Of grandeur or delight,
And every heart a gladder made
When the water greets the sight.

☞ A Lady in Troy, N Y, who had been given up by her physicians, sends us the following:

Troy, May 15, 1846.

Mr. Fowle—

In October last I took a violent cold, which settled on my lungs and produced a hacking cough accompanied with night sweats, which reduced me very low. A few days after I was taken I employed one of our best physicians, but received no help, I tried another, but with no better success, and finally a third, still growing worse all the while. At this stage of the disease I was reduced so low as to be unable to turn myself in bed, or sit up while my bed was made. My physicians finally gave me up, and said that I had the consumption, and that there was no help for me. My friends advised me to try *Wistar's Balsam of Wild Cherry*, but the doctors objected, said that it would only hurry me out of the world. I finally procured a bottle, and by using three bottles I was restored to perfect health.

THE OPINION OF A CONGRESSMAN

The following is from the Honorable *Lewis C Levin*, member of Congress from the first Congressional District, and formerly Editor of the Philadelphia Sun:—

"It has been said that we were influenced by selfish motives in bearing our testimony in favour of JAYNE'S EXPECTORANT, and that we recommend it for our *money*, by anything but an Advertiser in the Sun—now, long before the Editor's connection with this paper, we recommended it to those relieved from hoarseness and oppression of the chest, by the use of Hunter's celebrated cordial, and *from a sense of duty* recommended it to the public. At that time we had not the most remote idea of taking a daily paper, and Dr Jayne gives a preference to the Sun not only on account of its large and rapidly increasing circulation, but because the paper opens to a Advertiser a new class of readers, who were never the habit of taking the daily penny papers of the city. Bearing our humble testimony to virtues of the Expectorant, we do not stand alone. Thousands in this city and in our native province, and although opposed to the use of whatever termed "Quack medicines," unanimously, we, when asked in this case, we have felt the benefit of the medy—which as we freely acknowledge, we keep it constantly in our family, as a certain and prompt remedy.

Cough or Coryza, we feel that we substitute the interests of society, when we state such facts to the public. The misrepresentations of interested individuals have forced this explanation upon us, which we cheerfully give."

LEWIS C. LEVIN.

The above medicine is prepared only by Dr D Jayne, Philadelphia, and sold in Bangor by G. W LADD and JOS. S INGRAHAM, Sangerville.

For sale in Oldtown, by H & J Y RICHARDSON.

Chloroform Toothache Drops.

It is well known that "CHLOROFORM" has superseded (in a great measure) the use of Ether, as an agent of pain, and is now used by the best Surgeons and Dentists in preference. A celebrated Chemist (and one of the first manufacturers of Chloroform.) has discovered that "Chloroform" with other simple ingredients, will instantly cure the TOOTHACHE. After testing it in many cases it has never failed to give relief, there is no possible danger in using it, as it will not injure the sound tooth a particle. All that is necessary in using these Drops, is to saturate with a bit of cotton or lint, and place it in the cavity of the tooth. Relief will be immediate.

None genuine without the signature of *Bond & Fox* on the wrapper. Sold at No. 19 Tremont Row, Boston.

For sale in Bangor by G. W. LADD. dawlm mt

Consumption and Dyspepsia.—Wright's Indian Vegetable Pills are one of the best medicines in the World for the cure of sickness, because they purge from the body those stagnant and corrupt humors which, when floating in the general mass of the circulation, are the cause of a deterioration or red of blood to the head, giddiness, headache, loss of memory, dizziness of sight, drowsiness, pain in the head, and many other symptoms of a tainted and corrupt state of the blood.

Wright's Indian Vegetable Pills are also one of the very best medicines for the cure of indigestion, and therefore will most assuredly restore the body to a state of sound health.

BEWARE OF COUNTERFEITS AND IMITATIONS! Remember that the original 25c. only genuine Indian Vegetable Pills have the signature of *William Wright* on the top label of each box.

The genuine for sale by DAVID BUGBEE, who is the only authorized agent for Bangor.

CONGRESS.

In the Senate, (Monday, March 20,) the amendment to substitute a minister to Rome instead of a chargé was lost by a vote of 13 to 19. The vote was reconsidered, and an amusing episode occurred between Mr Bates and Mr Foote. The amendment was again lost by a vote of 13 to 28.

In the House, Mr Sawyer's bill, to bring to this country the bodies of all citizens of the United States, who have died in Mexico during the present war with that republic, was taken up.

Mr Sawyer spoke in favor of the bill.

Mr Haskell made an able speech in opposition to the bill. He would support no humbugs—Our own dead were not distinguishable from the Mexican. He would vote for a pension to the widows and orphans of those of our soldiers who had been killed in the war with Mexico.

The bill was finally referred to the committee on military affairs.

The House then took up the Indian appropriation bill.

Mr Sawyer charged fraud and corruption in the item of appropriation for Richard M Johnson.

Mr Johnson, of Arkansas pronounced the charge false. Great excitement prevailed for some time, but order was subsequently restored.

Baltimore March. 19

The receipt of the news from Europe has caused tremendous excitement in this city.—Stocks declined yesterday, and business circles wore the aspect of gloom.

Mutual Benefit Life Insurance COMPANY.

—OFFICE No. 2 GRANITE BLOCK—

EAST MARKET SQUARE . . *BANGOR.*

THE affairs of this Company are in the hands of business men favorably known to the community, who have permission to refer to the following gentlemen in Boston:

Hon J G Rogers, Seth A. Appleton Esq.,
Hon E. Fairbanks, Messr. J. E. Thayer & Bro.
Hon G. Bates, Esq., Messrs Swett & Co.

and to the following Gentlemen in Bangor

Hon Edwin Kent, Charles Hayward,
James Crosby, Joseph Bryant,
Gen. S. F. Strickland.

This Company offers the following advantages:

1st. When the premium is over fifty dollars annually, one-fourth *only* be paid in cash, and these notes in a secured note, at twelve months, with six per cent interest, or it may be paid half yearly, quarterly, or monthly.

2d Parties taking *fifty policies*, and paying *fifty per cent* of premium in cash, and those taking policies for *whole period*, and paying *sixty per cent* in cash, (of over fifty dollars per annum) may give their individual notes for the balance, if satisfactory to the officers.

Whole number of policies issued in 32 months, to the 1st of January, 1848, 4157

Whole amount of premiums Dollars, $144,314 66.

Dividend of profits, January 1848, 75 per cent.

This Company has now held about 3 years in operation and is in a gratifying circumstance, that its progress has fully tested the principles adopted in its management, and thus far more than realized the most sanguine expectations of its friends.

Its remarkable element of business, which is without a parallel in the history of Life Insurance, shows that it is gaining in public confidence, and that there is an increased disposition in the community to avail of its benevolent operations.

STILL FURTHER PROOF OF THE POWER AND EFFICACY OF

Thompson's Compound Syrup OF TAR, IN CONSUMPTION.

Philadelphia, March 1st, 1844.

I hereby certify, that in consequence of repeated and neglected Colds, my lungs became seriously affected, and for a long time I have suffered with violent pain in the breast, obstinate cough and difficult expectoration. The symptoms daily increasing in violence, I had recourse to various remedies with no avail, until I used *Thompson's Compound Syrup of Tar*, which effected a perfect cure before I had taken three bottles. Permanent Cure of Dyspepsia and habitual Costiveness.

To Dr Ralph.

DEAR SIR—I have, myself, almost no occasion for your inestimable Pills. I have used them any six years, on occasion desired; and I have reason to suppose they have wrought a thorough and permanent change in respect to the functions of the stomach. From habitual costiveness, and the voiding of noisome and slimy stools, I am completely relieved. The multifarious symptoms of Dyspepsia, with which I was once too well acquainted, have so entirely passed away, that I hardly know what they were. Any one you may make of this, or a more full development of my case, is at your service.

Except in an obstetric case, your book (Family Physician) and Pills have been the only physician in my house for six years.

Tell me many of my friends around, and more and more, who call for your Pills as a family medicine, all for chronic cases. Yours truly,

Marcellus Walsh.

New Britain, Conn., May 20th, 1846.

Sold in Bangor at twenty-five cents—and in packages of 36 pills, which is much saving of expense.

Patent Mill Wheels.

Timbey's Patent

Two Vent Cast Iron Water Wheels,

—OR—

SAW MILLS,

Invented by T. R. Timbey of Cato N. Y.

THE undersigned would invite the attention of the Public to the above named WHEELS, which have been thoroughly tested in *Competition* with all other popular

SAW MILL WHEELS

in use at the present time, and they can confidently recommend them, with the same head and quantity of water applied, as possessing and combining *more Strength and Speed*, and giving a more *uniform* and *Steady Motion* than any other of the sort (and therefore not liable to break shafts,) and will also run *longer* and *Saw more Lumber* under a low head than any other Wheel in use.

Another advantage which this Wheel has over others is that it is constructed with but Two Vents for the discharge of water which makes the apertures larger and allows the 'drift stuff' to escape without filling up the Wheel.

Persons wishing to adopt the BEST WHEEL will do well to call and examine before purchasing elsewhere

We would also call the attention of Mill Owners and Operators to

Valentine's Patent

Reversing Centrifugal Water Wheel,

—FOR—

"UPRIGHT SHAFTS,"

WHICH are adapted for driving all kinds of Machinery in Manufacturing establishments or Mills, and are made of different sizes so as to give any amount of power required, and from the reputation these Wheels have acquired by the successful operation of several hundred at this time already sold and in use, we feel confident in recommending them as combining more advantages than any other Wheel, for perpendicular Shafts, now used.

As evidence of the merits of this Wheel we would refer to the following extracts from the report of experiments made with the same by ITHAMAR A. BEARD, Esq *Civil Engineer*.—Lowell, Mass. who is well known as one of the most Scientific and experienced practical Engineers in this country.

"This wheel is formed with curved floats the number depending upon the size and vent of the Wheel, each extending so far around the Wheel, that when the water arrives at the jet its pressure is so far expended that it falls very nearly inert from the Wheel. The Wheel is inclosed in a cylindrical wooden curb or flume, in which the water stands at its full head, the column being sustained by the stationary plate underneath the Wheel, so that it has no downward pressure upon the Wheel, which stands perfectly free in the column of water, and by this arrangement all the friction on the step and bearing of the Wheel is avoided, and so much of the power saved, which in the ordinary mode of operation is wholly lost.

"This Wheel is adapted to low as well as high heads of water, and will run as well in back water as out of it, providing the head rises in a freshet as fast as the back water. But a Wheel with the jets rightly gauged for a high head will not answer for a low one, and vice versa, for as the head increases, the width of the jets should be proportionably decreased, so that the water may not issue to waste, and not give its best effect to the Wheel.

"In point of power, the trials show conclusively that this Wheel is superior to the best constructed Breast Wheels, and it has the advantage of working with good effect in situations where the Breast Wheel would be worthless, is less liable to needed repairs, easily accessible when they are needed, costs much less in the outlay, is much more durable, and takes very much less room in a mill or shop—Simplicity of structure, durability of parts, convenience of application and excellence of power are the grand points of recommendation for this Wheel.

ITHAMAR A BEARD, *Civil Engineer.*"

ALL-HEALING Ointment,

FOR THE CURE OF Colds, coughs, consumption, liver complaints, scrofula, sores and all external affections, for bilious complaints, dress of the liver, kidneys, stomach and bowels, for general debility.

This celebrated Ointment has a most striking effect upon the body, cleansing it from all impurities, keeping the pores of the skin free and healthy, promoting the free and healthy secretion of the lymphatic fluid, and thus removing the cause of the glands about the neck, the groins, the axilla or under the arms, about the ear, and all other parts of the body.

This All Healing Ointment is equally efficacious in promoting the secretion of the kidneys, relieving from retention of urine, and by restoring the tone and function of the urinary organs effectually preventing incontinence of urine. Its equally efficacious in acting upon the nervous system by curing neuralgia, St. Vitus's dance, nervous headaches, nervous weakness, want of feeling or power of motion from some local or general affection of the nervous system. Its effects without great power on all the fluids and solids of the body, and attacks disease in whatever part located, whether on the surface or internal organs.

We speak the things which we know of, like as to the healing efficacy of this justly celebrated Ointment and wonderfully named "ALL HEALING OINTMENT." The innumerable cures that have been announced, the tens of thousands and sufferers relieved and cured and the more than ten thousand hearts which have been contented and cheered by its salutiferous efficacy, testifying to the truth of all, and more than all, herein inserted.

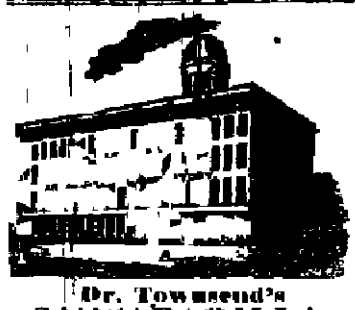
Christmas Presents!

JOHN STEVENS,

No 10 MAIN STREET

HAS a fine lot of WATCHES, Gold and Silver Watches, Fancy articles and TOYS, all very desirable goods for holiday presents,—which are offered to the public at the very lowest prices

Dec 24.



Dr. Townsend's SARSAPARILLA,

THE MOST EXTRAORDINARY MEDICINE IN THE WORLD.

This extract is put up in quart bottles, is a concentrated form, is cheaper than any other preparation, and is warranted superior to any other. It does not require any vomiting, purging, or change of diet during the cure.

The great celebrity and superiority of this Sarsaparilla over all other preparations of the kind is derived from its having given the most decided cures of the very best of all the other preparations of the kind known to the public, and in the most inveterate cases of disease, at least 20,000 of these were considered incurable.

More than 3000 cases of Chronic Rheumatism,
2000 cases of Dropsy,
4000 cases of Dyspepsia,
7000 cases of Chronic Female Complaints,
2000 cases of Liver Complaint,
1500 cases of the Liver Complaint,
2000 cases of Chronic Diarrhœa and Dropsy,
80,000 cases of Consumption,

are a few of the cases of the blood viz — Ulcers, eruptions, salt rheum, scrofula on the face, neck &c. together with numerous cases of such head ache, pain in the side and chest, spitting of blood, &c &c.

This we are aware, is a bold assertion, but we have letters from physicians and agents from all parts of the United States, testimonials of cures in all the various forms of disease, and in the most inveterate cases, which we will show to any person who may call at our office, No 130 Washington St Boston, or at our agent's in New York, N. J. and we feel that we can safely say that no other medicine has ever been offered to the public which has such a mass of testimony to its virtues as this. This testimony we are prepared to show, and we feel that we can safely say that no other medicine has ever been offered to the public which has such a mass of testimony to its virtues as this. This testimony we are prepared to show, and we feel that we can safely say that no other medicine has ever been offered to the public which has such a mass of testimony to its virtues as this.

CONSUMPTION CURED

Cheapside St Hartford. Consumption can be cured. Brandreth's Consumption Liver Complaints, Colds, Coughs, Spitting of Blood, Pain in the Side, Night Sweats, Dyspepsia, Costiveness, &c. have been and can be cured.

Dr. Townsend—Dear Sir—Supposing myself to be a victim of a violent cold which at that time was very deep, and difficult to remove, indeed, I felt it to be a disease which it might, but was so severe as to prevent me from attending to my business. Within the last five or six weeks I commenced to improve gradually. At last I took a dose of Brandreth's Vegetable Pills, and found that they had a very good effect upon me. I continued to take them, and in the course of a few days I found myself much better. I continued to take them, and in the course of a few days I found myself much better.
